

Maximizing Performance with Domino N610i

Media Qualification Training Workshop

With Domino, you get MORE.

**More Speed. More Throughput. More Capacity.
More Revenue. More Profit.**

Domino makes it easy for you to 'do more' and get more with our Media Qualification Training Workshop. Working with medias on a new digital press often comes with a steep learning curve. Let the Domino Digital Solutions team help you become a media evaluation expert!

Domino. Do more.

See more.

Media Qualification Training Workshop:

- Fastrack acceptance of qualified substrates.
- Demonstrate the impact of various file and press settings (Lamp Settings, Ink Limits, etc.).
- Utilize various media evaluation images and explain their function.
- Demonstrate methods for selecting substrate types.
- Explain the difference between factory top-coating and customer priming.

Learn more.

In the Media Qualification Training Workshop, participants will:

- Decrease time in evaluating medias.
- Learn systematic approaches to media qualification.
- Better understand the effects of various file and press settings.
- Understand pre-treatment options (corona, priming, etc.).
- Learn techniques for evaluating print quality and performance.

Do more.

The 3-Day On-Site Media Qualification Training Workshop includes:

- Evaluation of up to 3 customer-supplied substrates.
- Evaluation of Domino supplied substrates.
- Domino Media Qualification images.
